

To Whom It May Concern:

I have been asked by Mr. P. Grebelski to write a letter of appreciation/recommendation for his many historical books on Russia and the Russian empire.

I am a professor of Geography at Chaffey College in Rancho Cucamonga, California and I often utilize books written by Mr. Grebelski in my classroom lectures and especially in my research. He is exceptionally erudite and knowledgeable in his field. He has spent many years researching Russian history especially when it comes to the Russian empire. He is also well acquainted with general European history.

I always look forward to reading his books knowing that I will learn many interesting things. I also recommend his books to my other Russian readers- both students and colleagues. Mr. Grebelski has rare insight and information on many of the leading families of the Russian empire as well as the Romanov Dynasty.

I hold Mr. Grebelski in the highest esteem and greatly value the tremendous body of work he has contributed to the field of Russian history.
